EXPERTISE

UX Design

UI Design

Interaction Design

Design Systems

Prototyping

User Research

Usability Testing

Accessibility (WCAG)

Wireframing

Systems Thinking

Responsive Web

Native iOS & Android

Visual & Brand

STRENGTHS

- AI design & AI-augmented workflows
- AI design tools (Claude, Figma AI, prompt-driven UI)
- Simplifying complex apps into intuitive flows
- Login, identity & security UX
- 0 → 1 product design
- Cross-functional leadership
- Mentoring & design critique

TOOLS

Figma · Adobe XD · Framer

Illustrator · Photoshop

Design tokens & UI kits

HIGHLIGHTS

19+ yrs visual & product design

10+ yrs UI / app design

Enterprise-scale, regulated products

Senior Product Designer with 15+ years across product and visual design. I'm AI-native — I ship working, code-backed prototypes and accessible design systems built for AI to extend — and I thrive on **simplifying complex apps** into intuitive experiences, end to end, from research to developer-ready handoff.

EXPERIENCE

○ **Founder & Lead Product Designer**

BagEquity

FINTECH · 0 → 1

2025 – Present
Remote · Denver, CO

- Founding a fintech platform that helps families and youth-sports coaches manage money together — leading product design end to end.
- Designed the full experience from zero to one: onboarding,

account, and money-movement flows across web and native mobile.

- Built the design system and UI kit in Figma, establishing accessible, scalable patterns aligned to WCAG.
- Designed secure, compliance-aware flows — identity, consent, and account management — for a regulated product handling sensitive family data.
- Partner closely with engineering on prototyping, usability validation, and dev-ready handoff.

○ Senior Product Designer

Sep 2022 – Present

CVS Health · Accounts Team

Remote

- Design account experiences for iOS and Android, owning login, security, and identity flows used by millions of CVS customers (promoted to Senior, Feb 2024).
- Redesigned biometric and secure-login flows, simplifying authentication and cutting friction across platforms.
- Streamlined checkout and navigation, resolving significant user pain points and improving task completion.
- Owned end-to-end design: user research, wireframes, interactive prototypes, usability testing, and developer handoff.
- Partner cross-functionally with PMs, researchers, and engineers to ship validated, accessible solutions.

○ UI Designer

Mar 2022 – Oct 2022

Freebird Stores, Inc.

- Led the website overhaul and laid the design foundation for the Freebird iOS app.
- Built Freebird's first design system and migrated the design team to Figma.
- Led customer interviews and design critiques; set long-term product vision with stakeholders.
- Delivered accessible, dev-ready designs for enterprise-scale applications; coached fellow designers.

○ UI Designer

2020 – Present

Freelance

Denver, CO

- Designing an AI-powered pre-store planning app that helps users locate products in unfamiliar cities.
- Translate product concepts into detailed mockups and workflows with PMs, within established design systems.
- Build accessible, scalable enterprise UI and interactive prototypes for clean developer integration.

○ Visual Designer

2006 – 2022

Freelance

Denver, CO

- 15+ years across print, marketing, and digital design for agencies and enterprise clients.
- Built brand and marketing assets in Figma, Adobe XD, Framer, and Illustrator; transitioned from print into UI and app design.
